A bobcat's tail is relatively short at about 5 inches which accounts for its name, bobcat. They are often called wildcats as well.

The Bobcat *Lynx rufus* is the most successful wild cat species in North America, and more easily recognized than many other small wild cats.

North America is home to four species of wildcats. The Bobcat, Lynx, Ocelot and the Puma or Cougar are considered native to North America.

Bobcats, the only resident native wild cat in Indiana, are a species of great curiosity. Because they are generally a solitary and secretive animal, bobcats often.
