Beginning with a look at different types of suicide throughout history, this book launches into discussions on the culture of suicide, reasons people take their own lives, and how to cope with a suicide. The author devotes entire chapters to depression and suicidal warning signs, and relays options for young people seeking help. Replete with scenarios, the author puts a human face on a generally taboo subject and gives hope to both the depressed teen who is considering taking his or her own life and those who have lost a loved one through suicide.
