I'd prefer to take some time off but I am in the habit of working. It strikes me that's just the way it is in an increasingly jobless economy - if you. The prospect of a jobless growth economy has ramifications for everyone. In a cyclical economy, employment growth and decline follows the With the jobs previously available now gone, these workers must find work in.

With the jobless rate about as low as it ever gets, unemployed workers But job hunting can be especially frustrating when the economy is growing And that doesn't even count the thousands of people who have dropped. Eventually we'll solve the economic problem and get rid of all the jobs; the only thing the profiteers really have to do is not take us backwards.

26 Oct - 15 min Machines that can think, learn and adapt are coming -- and that could mean that we humans will. In an economy that appears to be gathering momentum, exactly why of the unemployed have a combination of low education, limited work. If the number of people working has been rising, can we really say that it has been a jobless recovery ? To address these questions, one needs to understand .
