

Finally reunited, this edition brings together How to Mix Drinks by Jerry Thomas with A Manual for the Manufacture of Cordials, Liqueurs, Fancy Syrups, etc. etc., by Christian Schultz as it originally was published in the 19th century. Many people mistakenly believe the cocktail is a modern invention often citing the Prohibition as the driving force for this liquid innovation. Thanks to The Bon-Vivantâ€™s Companion, it can easily be established that a drink such as the Whiskey Smash has not changed in the last 150 years. Other recipes like the Raspberry Shrub have, thankfully some might say, disappeared from the modern bartenders repertoire. Whether used as a historic document, a bartending guide, or as the beginning of a lost weekend, this volume is not to be missed!
