

The book that inspired the major motion picture I Saw the Light. Originally published as Hank William: The Biography. In his brief life, Hank Williams created one of the defining bodies of American music. Songs such as Your Cheatin Heart, Hey, Good Lookin, and Jambalaya sold millions of records and became the model for virtually all country music that followed. But by the time of his death at age twenty-nine, Williams had drunk and drugged and philandered his way through two messy marriages and out of his headline spot on the Grand Ole Opry. Even though he was country musics top seller, toward the end he was so famously unreliable that he was lucky to get a booking in a beer hall. Colin Escotts enthralling, definitive biograph--now the basis of the major motion picture I Saw the Light--vividly details the singers stunning rise and his spectacular decline, revealing much that was previously unknown or hidden about the life of this country music legend.
