

Horror fiction is an important part of the popular culture in many modern societies. This book compares and contrasts horror narratives from two distinct cultures--American and Japanese--with a focus on the characteristic mechanisms that make them successful, and on their culturally-specific aspects. Including a number of narratives belonging to film, literature, comics and video games, this book provides a comprehensive perspective of the genre. It sheds light on the differences and similarities in the depiction of fear and horror in America and Japan, while emphasizing narrative patterns in the context of their respective cultures.

Bone of His Bones, Marvel Age Spider-Man Set III, THE TRAVEL IN TIME - 21 Solutions for 21 Questions of the XXI century Physics - (Scientific version), Networks and Netwars: The Future of Terror, Crime, and Militancy, Fallacies and Argument Appraisal (Critical Reasoning and Argumentation),
