

Just before Israel's seven year period of Tribulation the nations in the old world will fight against one another. Luke 21:10 Then said he unto them, Nation shall rise against nation, and kingdom against kingdom: There are a lot of nations mentioned in the bible. Did you know that the bible usually identifies each nation by name?! Sometimes the bible identifies an ancient nation by the name of its provinces or cities. In most instances these ancient names are still being used today! So identifying modern day nations that are listed in the bible is not too difficult. The bible records the history of these nations especially when their history also affects the nation of Israel. The bible also predicts the future actions of these nations. In the bible the nations are also called gentiles or heathen. The gentile nations are simply the original families that settled their own countries after Noah's flood. These are the same nations in the Middle East, Northern Egypt, and Central Asia that we still know today. Most of these nations have rebelled against the God of Israel since their beginnings. End time bible prophecy centers upon the trouble that Israel will endure under the rule of the next World Empire. All of these nations will oppress the nation of Israel during their time of tribulation. This book identifies a few key nations who will play significant roles during the years leading up to and during Israel's time of trouble. We will take a verse by verse look at specific prophetic events that these nations will fulfill. I expect that these prophecies reflect the near time future of world history.
